

Welcome to California Airways!

More About California Airways

California Airways is the San Francisco Bay Area's oldest flight school and flying club. Over the past 68 years, California Airways taught thousands of pilots how to fly. Offering affordable flight training and aircraft rental for pilots of all experience levels, California Airways offers training from student pilot through ATP ratings. The Airline Pilot Programs take a student from zero flight time through the commercial single and multi-engine certificates, plus all three flight instructor ratings.

California Airways is an FAA-approved Part 141 flight school. California Airways offers FAA-approved flight simulators that can significantly reduce the cost of flight training.

For renter pilots, a diverse fleet of well-maintained aircraft: C-152, C-172, C-182 and Piper Arrow are available for use.

Unlike most flying clubs, California Airways does not charge an initiation fee, which can be as high as \$300 for some clubs. California Airways does not charge any monthly dues.

California Airways has a multi-engine plane that can be used to obtain your ME and MEI ratings.

To learn more, call 510-887-7686, click the contact link above, or stop by the office between 9 am and 5 pm, seven days a week.

California Airways is located at **19990 Skywest Dr, Hayward, CA 94541.**
